A detailed view of the cockpit of a 2022 Phenom 300E aircraft. The central focus is the Garmin G3000 Prodigy Touch Avionics system, which consists of three large primary flight displays (PFDs) and three multi-function displays (MFDs). The PFDs show various flight parameters like altitude, airspeed, and attitude, while the MFDs display maps, engine gauges, and system status. The cockpit is equipped with dual control yokes, a central console with various switches and buttons, and side consoles with additional controls. The overall design is modern and ergonomic, with a dark color scheme and clear, high-contrast displays.
